ACKNOWLEDGMENT

This symposium is supported by grants from:

CSL-Behring
IBT Laboratories
MEDA Pharmaceuticals
Merck
Sanofi Aventis
Talecris
Teva
UCB
ViroPharma

DIRECTIONS

Nassau University Medical Center is located in the geographical center of Nassau County. It is situated between Meadowbrook State Parkway to the west and Wantagh State Parkway to the east, and slightly east of Eisenhower Park.

When coming from the west take exit **M5 EAST** from Meadowbrook State Parkway onto Hempstead Turnpike. When coming from the east take **W3 WEST** from Wantagh State Parkway onto Hempstead Turnpike. Being the tallest building in Nassau County, the Medical Center can be seen from a long distance. By car it takes about 45 minutes to drive from Manhattan to Nassau University Medical Center.

The Medical Center can also be reached by way of the **Long Island Railroad**. Take the Long Island Railroad to either the **Hempstead Station** or the **Westbury Station**. These stations are only a short ride by taxi from the Medical Center. The Long Island Airport Limousine Service will bring you to a hotel near the hospital, from where you can take a taxi to the hospital.

Undergraduate Medical Education

Due to current changes and new concepts related to new developments in the treatment of allergic disease related to allergic rhinitis, asthma, drug hypersensitivity, primary and secondary immune deficiency as well as urticaria and atopic dermatitis; these topics are important for all health-care practitioners to evaluate and treat primary care, allergic and immunologic diseases and to acquaint themselves with updated information. Upon completion of this program physicians and other health care providers who encounter pediatric and adult patients with allergic and pulmonary and dermatologic disorders will be able to recognize mechanisms of these conditions and be knowledgeable on new treatment options.

The goals of this program are consistent with the mission of the Nassau University Medical Center Health Care System to provide the finest in
