*Learning objectives:*

1. To be able to define establishment psych by its theory and its practice and appreciate the limits of establishment psych according to its own framework.
2. Identify how establishment psych structurally forecloses access to emancipatory spaces, social knowledge, and insurrectionary drives and the new potentialities they harbor.
3. Understand how establishment psych developed not only according to good will and scientific spirit, but more foundationally within the context of a socioeconomic system and capital-nation-state dynamics that play a determining role on the field.

**Target audience:** Physicians, Fellows, Residents, PA's, NP's, Pharmacists, Medical Students and all other personnel involved in patient care.
